

## Maryland Department of Agriculture MARYLAND AGRICULTURAL WATER QUALITY COST-SHARE PROGRAM 350 - SEDIMENT CONTROL POND RESPONSIBILITIES

	Agreement Number:	
minimum of 15 years. I also understand th	ble for maintaining the Sediment Control Po at if I fail to maintain the Sediment Control Standard and Specifications for pond mainte st-share grant.	Pond in
	the Sediment Control Pond <i>I am not elig</i> rol best management practices within the a	•
Additionally, I understand that the sediment trapping characteristics of the Sediment Control Pond cannot be impaired, altered, or reduced by any design feature, future modification, nor intended future use of the pond.		
I have been made aware of other best management practices that would be effective in controlling erosion above the pond site, but I have chosen to install a pond that will control sediment in order to protect the quality of the waters of the State.
